Comparative

BJCP Style(s):

12(B) Specialty IPA

ABV: 7.1%

IBU's: 77

Favorite Song:

Jerry Reed's

East Bound and Down

“Hazmat” is trucker slang for hazardous materials. Our wild fermenters, the yeasts and bacteria, fit into that category. They produce an IPA with a moderate lactic acidity, while not being a full blown “sour beer” you certainly won’t miss their influence. This balances the hop bitterness while leaving flavors and aromas intact for a truly unique IPA.
